

Meggis Enterprise Co., Ltd.

Toggle switches, rocker switches, marine switch panels,
DC battery gauges, electronic components, others

Established in 1975, the ISO 9001:2008-certified Meggis Enterprise Co., Ltd. is one of Taiwan's top manufacturers and exporters of a wide range of parts and accessories for automotive and marine applications. With the backing of its strong in-house R&D team, the firm has successfully tapped the international market for automotive and marine electrical parts.

Meggis supplies a wide variety of products including rocker switches, toggle switches and waterproof boots, push-pull switches, emergency cut-off switches,

illuminated switches, DC battery gauges, terminal blocks, stud-bus bars, and marine switch panels, along with OEM electrical products and other plastic parts.

The manufacturer says that its sealed toggle switches and waterproof boots (TC Series) have won UL/CSA approval and IP (Ingress Protection) 68 rating, while its sealed rocker switches and changeable actuators (SW-2896 Series) are UL-61058 and IP 67 approved. This reflects the company's robust strength in developing and manufacturing high-level products.

The versatile firm also manufactures metal parts and rubber/silicone parts, and helps customers design and develop molds and dies.

Continuous investment in product development and technical advancement enables Meggis to offer a product line comprehensive enough to meet the needs of all its different customers. Its modern integrated factory in southern Taiwan uses the most advanced equipment and adopts stringent quality-control

measures to assure the best quality and durability of each product.

The company's quality products are popular among customers worldwide, especially in the U.S., Japan, Australia, New Zealand, and Europe.
