

Jin Da Sheng Co., Ltd.

Wrenches, box-end wrenches, combination wrenches, socket wrench sets

Since its establishment in 2001 in Taiwan's central metropolis of Taichung, Jin Da Sheng Co., Ltd. has been dedicated to developing and manufacturing wrenches, being a fast growing supplier with solid reputation among buyers at home and from abroad.

Jin Da Sheng supplies box-end wrenches, combination wrenches and socket wrenches in a full range of sizes, as well as various socket wrench sets with complete combination of wrenches, sockets and related accessories and packaged into high-quality blow-molded cases for easy carrying. Each wrench the company provides is made with well-honed production skills and strict quality control, hence sought-after by professionals.

This manufacturer concentrates particularly on continuous improvements of technology, to satisfy customers with not just exceptional quality and high efficiency, but also technologies that help them to troubleshoot and enhance competitiveness. Such effort has been well rewarded, as the company is widely deemed by clients as a highly technologically skilled supplier, who also offers reasonable prices.

Bolstered by consummate production technology,

persistent commitment to quality and customer services, Jin Da Sheng capably handles contract orders on the ODM (original design manufacturing) and OBM (original brand manufacturing) basis.
