

# Forwell Precision Machinery Co., Ltd.

## Quick die/mold changing systems and more

**F**ounded in 1987 in central Taiwan, Forwell Precision Machinery Co., Ltd. excels in quick die-mold change system, die/mold cart systems, PCB fine piercing systems, and automatic die clamping systems.

The wide range of quick die/mold change and automatic clamping systems the company supplies is customizable for a wide variety of machines, including presses (mechanical and hydraulic types), plastic injection molding machines and die casting machines.

Having become ISO-9002 certified in October 1997, the company became the first ISO-9002-approved maker of quick die/mold change systems in Taiwan. In the following year, the

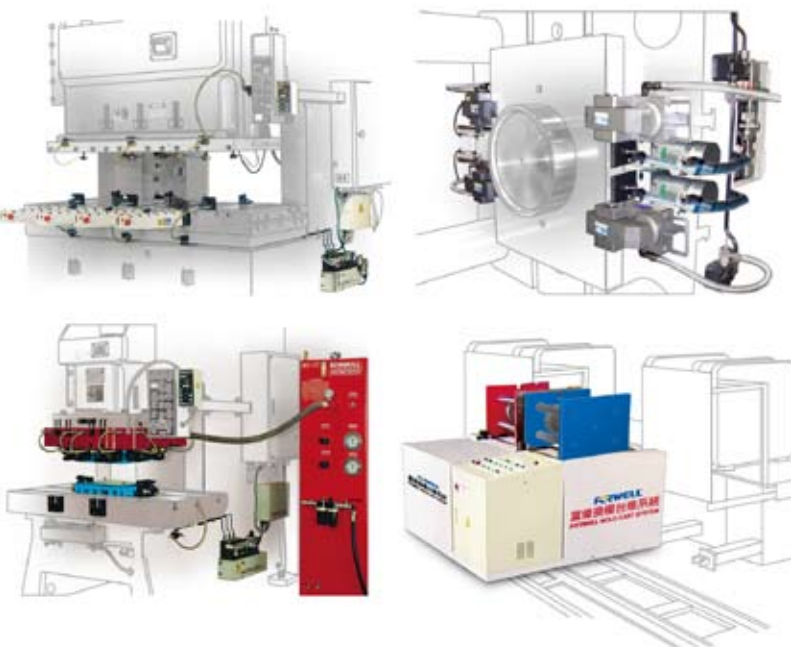

company earned the CE Mark, making it qualified to sell products to Europe. With international certificates, the company proves that it ships not only products but also quality.

Emphasizing research and development, quality, service and innovation, the company has been able to develop innovative products in tune with customers' tailored requirements.

Thanks to strong performance and an increasing customer base, Forwell has strong global presence and is the leading manufacturer of quick die/mold change systems both in Taiwan and China.

The company is constructing a factory on 12,000 square meters in Jiangsu Province, China, which is scheduled to be completed in 2015 to enhance Forwell's R&D capability and drive substantial growth in business in the years to come.

Opening an office in China in 1999, the company officially inaugurated its push into that market, with offices now in Ningbo, Zhejiang; Chongqing, Sichuan; Shenzhen, Guangdong, in addition to the one in Jiangsu.
