

Chang Lian Fa Machinery Co., Ltd.

Various orbital riveting machines

Chang Lian Fa Machinery Co., Ltd. offers a variety of riveting machines, including hydraulic riveting machines and pneumatic riveting machines.

Among the company's most outstanding models are the LF-128, a desktop pneumatic riveting machine, and the LF-168, a universal-type hydraulic riveting machine.

The LF-128 is ideal for every riveting job, providing a choice of single-phase or three-phase voltage and the ability to work with rivets ranging from 2mm to 5mm in diameter. The LF-168 comes with a device for gearing up and down its work table, and can work with rivets up to 12mm in diameter.

The company has a broad customer base that covers the globe. In Taiwan, its foremost customers include Asustek Group, GSK Group, SRAM Corp., Lion Tools Group, and Denso Taiwan Corp. Among its mainland Chinese customers are Yanfeng Johnson Controls Seating Co., Dongfeng Johnson Controls Automotive Seating Co., Lear Corp., BYD Co., Valeo Management Services Co., and Lam Automotive Welding Equipment Co. Its Japanese customers include Exdey Vietnam.

The firm also ships its machines to Thailand, Canada, Mexico, Australia, New Zealand, England, Denmark, Sweden, Russia, Sri Lanka, Pakistan, Oman, Indonesia, Malaysia, the Philippines, Singapore, Israel, Poland, Greece, the UAE, Egypt, Chile, South Korea, Colombia, and Vietnam.

J.C. Tung, working with a group of colleagues from a riveting machinery manufacturer who share his vision of the industry's bright future, established Chang Lian Fa in central Taiwan in 1993. Tung himself has been involved in the riveting machinery industry since 1983.
