

Chan Shiuh Car Material Co., Ltd.

Radiators, evaporators and condensers for cars, buses, trucks, watercraft, machinery

Chan Shiuh Car Material Co., Ltd. is a veteran specialist in the development and manufacturing of high-quality cooling system parts including radiators, evaporators, and condensers for cars, buses, trucks, watercraft, machinery, and computers.

Founded in 1987, the manufacturer possesses the strong in-house development and manufacturing capability needed to accept both OEM and OEM orders.

In addition to general radiator, evaporator, and condenser models for a wide range of applications, the firm also offers intercooler-radiators for turbo engines, auto-transmission oil-cooled radiators, and engine oil-cooled radiators, among other products, fully meeting the needs of its customers for product variety.

Thanks to constant investment in product development and continuous expansion of its product line, Chan Shiuh currently offers more than 6,000 product models for almost all major vehicle applications--and the number continues to grow rapidly.

The company says that the quality and durability of its products are fully assured by a full range of testing and inspection equipment. Factories in both Taiwan and China give the firm an advantage in price competitiveness and prompt delivery.
