

Wei Shiun Fasteners Co., Ltd.

Screws, self drilling screws, nuts, SEMS screws, rivets, jump rings, hey keys, self tapping screws, self tapping screws, machine screws, T nuts

For more than 27 years since it was founded in 1987, Wei Shiun Fasteners Co., Ltd. has devoted its efforts to making fasteners for a wide range of applications such as machines, handsets, computers, and electronic devices.

With two factories covering a total of over 2,400 square meters and containing a large number of heading and threading machines as well as advanced quality inspection equipment, the company carries out highly integrated in-house production from manufacturing through testing and packaging to delivery, guaranteeing customers high production efficiency, consistent quality, and punctual delivery. The factories are ISO9001- and ISO9002-certified.

Wei Shiun's product catalog covers a wide variety of fasteners including self drilling screws, SEMS screws, washers, machine screws, self tapping screws, tri-lobular thread screws, drywall screws, thread cutting screws, special screws, rivets, nuts, T nuts, hex keys, jump rings, nylon nails, anchors, and studs, among others, which are available in a choice of materials such as stainless steel, low carbon steel, steel alloy, copper, aluminum, and titanium. The manufacturer can supply about 20 million screws and other fasteners ranging in diameter from M1.2 to M12 monthly.

While marketing its products under its own brand at home, where it has built up a solid reputation, Wei Shiun is also known worldwide as a reliable and competent export supplier. Backed by well-honed manufacturing technology and extensive know-how, the firm also fills OEM (original equipment manufacturing) and ODM (original design manufacturing) orders.
