

# Showa Denso Technology **SDT**

Ignition coils, AC generators, electronic ignition devices, electrical parts, etc.

Founded in 1995, Showa Denso Co., Ltd. is an ISO 9001-certified company specializing in the production of high-quality, high-performance ignition coils and other electrical auto parts, such as AC generators, electronic ignition devices among others.

The company was established by a group of seasoned professionals with more than 30 years of experience in automotive ignition system parts, which explains its leader-of-the-pack R&D and production capability.

Showa Denso is headquartered in Tainan, southern Taiwan, where the maker has a sizable factory complex with an office building and an integrated factory. The company's factory is equipped with modern, state-of-the-art production and testing equipment, and employs highly qualified engineers and staff to produce and supply high quality products at competitive prices.

Showa Denso focuses on the manufacturing of various ignition coils for automotive (both aftermarket and performance-tuning), motorcycle or PTW (powered two wheelers), marine, and industrial applications. For the automotive aftermarket, the company supplies ignition coils for a broad range of makes such as Toyota, Nissan, Honda, Mitsubishi, Ford, Mazda, GM, Chrysler, and VW.

Showa Denso received the ISO 9001 certification in 2003, and since then all of its production processes have been conducted stringently according to ISO's rigorous quality and safety standards. All products manufactured by Showa Denso undergo strict testing throughout different stages of production to ensure the quality of the finished products.

To fulfill its commitment to delivering superior service and high quality products, Showa Denso recruits well-trained technicians with different areas of expertise. Special emphasis is placed on the R&D stage of product development, which, the company says is continued throughout production and testing.
