

Tale-I Trading Co., Ltd.

Truck and bus parts, truck chassis parts, air springs, shock absorbers, shafts, water pipes, air springs, seat control valves

Tale-I Trading Co., Ltd. is a seasoned supplier of a comprehensive range of parts and accessories for heavy-duty vehicles, mainly trucks, buses, trailers, and military vehicles.

The trading company was founded in 1997 by four veterans in the business, who initially focused on importing and vending chassis parts for Japanese trucks in Taiwan. After the firm established a solid foothold in the truck/bus parts business, it began expanding into the manufacturing of truck/bus chassis parts for export. Today it maintains close and stable cooperative ties with a group of quality parts suppliers in Taiwan, enabling it to offer a comprehensive range of parts to customers worldwide.

Tale-I supplies a wide range of truck/bus parts including air springs, shock absorbers, flywheels, repair kits, seat control valves, parking brake lever assemblies, accelerator pedals, control lever assemblies, clutch release shafts, leveling kits, cab tilt cylinder kits, and oil coolers.

The company sells its quality truck and bus parts globally under its own "TITC" brand, which has become a respected nameplate in the international market for high-quality and -durability truck parts priced at reasonable levels.

Tale-I welcomes customers to contact it for further information on the company and its products. It has full confidence in its ability to meet customer requirements in the shortest time and with the finest in pre- and after-sales services.
