

# Jin Li Co., Ltd.

## CNC machining, stampings, forgings, home improvement and DIY tools, fasteners, and industrial parts

The Taiwan-based Jin Li Co., Ltd. is a professional manufacturer of industrial parts, hand tools, and fasteners, with well-honed CNC lathing, stamping, and forging techniques that have built it a solid reputation among buyers at home and abroad.

Drawing on its consummate skills, the company is able to turn out a wide range of products to meet the varied demands of its customers, with a product line that encompasses embossing punches, eyelet pliers, woodworking clamps, spring clamps, anchors, screws, washers and nuts, as well as CNC-lathed, stamped, and forged parts in standard and custom specifications that suit them to wide applications in giftware and stationery, building materials, electronic products and computers, household appliances, cars, bicycles, sporting equipment, lighting fixtures, car washing and maintenance equipment, and many other fields.

Thanks to its years of continuous improvement in R&D, quality, and manufacturing technology, the company has built up a large and growing customer base. The firm pays strong attention to the latest in product development and technological research aimed at achieving rapid, market-driven R&D that truly enhances value of its products and helps customers pull ahead of their rivals. To stay competitive, Jin Li constantly implements strict quality control measures and upgrades its production techniques.

The company also takes pride in its efficient, reliable production lines, which have a variety of periodically upgraded CNC lathes, punch

presses, and automated equipment as well as a full slate of

advanced quality inspection devices. These advantages allow the firm to supply its clients with products that assure high productivity, consistent high quality, and production efficiency, and to handle OEM (original equipment manufacturing) and OBM (original brand manufacturing) orders with the utmost confidence.
