

Hsun Wang Industrial Co., Ltd.

»»» Crimping tools, professional vehicle repair tools,
wire distribution devices, etc.

Founded in 1997, Hsun Wang Industrial Co., Ltd. is an ISO 9001:2008-certified developer and manufacturer specializing in high-quality hardware products for customers mainly in the U.S. and U.K.

The company supplies a wide range of products featuring quality, innovation, and reasonable prices, including crimping tools, professional vehicle repair tools, and wiring accessories, all of which are widely popular among professional users in various fields, especially the transportation vehicle industry.

Adhering to the slogan "Our service is our product, product quality is our mission," Hsun Wang is fully confident in its ability to provide products and services of the highest quality. Hsun Wang claims that the vigorous efforts it has devoted to its business have earned a global reputation, especially for the strong competitive advantage resulting from stringent quality control, and that it is fully confident that its state-of-the-art innovation can meet the varying needs of all its clients throughout the world.

The firm's continued business development has resulted in increasing sales in the U.S., and its aggressive business

deployment in the European market has led to outstanding sales growth. Now the company is setting its sights on marketing its high-quality products and services to more customers in Eastern Europe.

Hsun Wang insists that it always does its best to research every detail of its products so that it can be sure of providing the best of services to clients around the world.
