

# Parkson Wu Industrial Co., Ltd

## CNC Rotary Table , Auto Pallet Changer

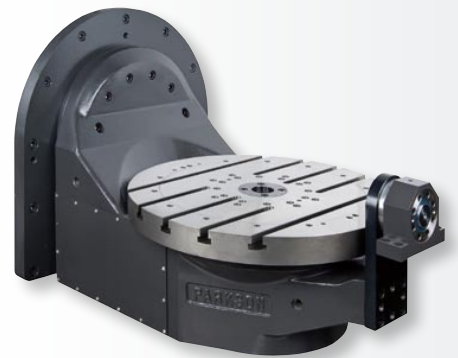

Founded in 1988, Parkson Wu Industrial Co., Ltd. designs and builds rotary tables and auto pallet changers for computer numerically controlled CNC machine tools, in addition to providing optimal rotary table solutions based on customer demands.

The company strives to use its intellectual property to develop products that meet customers' diversified needs. A strong in-house R& D team is responsible for the company success in introducing unique designs.

In addition to products with special specifications, the company also supplies the standard-spec rotary tables, four-axis and five-axis rotary tables, and horizontal rotary tables which are used widely in the market. The company's products are divided into two major categories, namely rotary heads and components for flexible manufacturing systems.

All the staffs at Parkson Wu always make an extra effort to upgrade equipment and processing technologies as well as to tighten with quality inspection. This has enabled the company to establish an integrated manufacturing capability and ensure the quality of its products.

Excellent quality and strong manufacturing capability have helped the company win original design manufacturing (ODM) contracts from a Japanese manufacturer, as well as to gain ISO and CE certification.
