

Multivictor Technology Co., Ltd.

Wire harness assemblies, fuse boxes,
trailer connectors, relays, cable assemblies
for automobiles and motorcycles

Founded in 1989, Multivictor Technology Co., Ltd. is a high-profile manufacturer and exporter of various wire harness assemblies and related electrical components for automobiles and motorcycles.

Multivictor's product lineup revolves around wire harness assemblies, applicable to car audio, head lamps, motorcycles, electric vehicles, all-terrain vehicles, etc., while including relays, lamp sockets, waterproof connectors, communication wire assemblies, LED automotive fuses, and so forth. The bigger-than-life supplier has built distinct presence not only in the automotive and motorcycle sector, but computers, electrics and electronics industries all over the world.

One key factor contributing to Multivictor's current success in the line is its unwavering dedication to top-end quality. To that end, the manufacturer employs advanced production equipment in house, and sets up a lineup of various toolings, which enable it to churn out the equivalents of connectors by globally known makers, such as Yasaki, Sumitomo, Furuikawa, Mitsubishi, Mazda, Molex, HRS, Tyco, AMP, Raychem, Delphi, FCI, GHW, JST and Ford, with rapid delivery, comparable quality and competitive prices.

Moreover, the company carries out strict quality control measurements in compliance with international standards throughout production, hence passing ISO-9001 / TS16949 certification and having its products be approved by UL.

Thanks to the abovementioned efforts, Multivictor has seen its wire harness assemblies sought-after by professionals in various industries for excellent performance, high precision and fine quality, and enjoyed a large base of loyal customers worldwide. The company welcomes any kinds of partnerships, including OEM (original equipment manufacturing) and ODM (original design manufacturing).
