## Blow molding machines

Kai Mei Plastic Machinery Co., Ltd., established in 1977, is a highly reputed manufacturer of blow molding machines with operating headquarters in Taiping Dist. of Taichung City, central Taiwan.

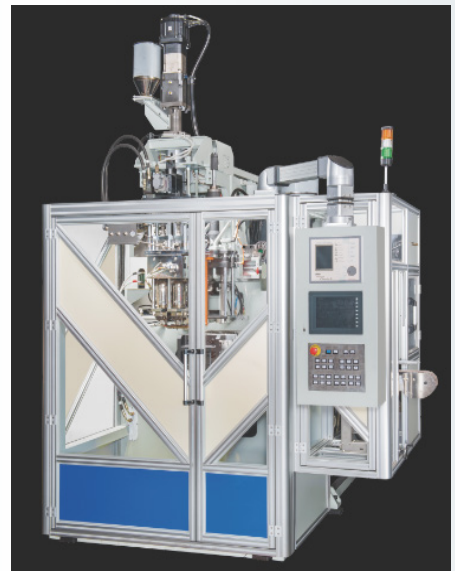

The ISO9001- and CE-certified company is capable of churning out different types of machines designed to produce containers made of various raw materials such as PE, PVC, PP, PETG, PU, etc. Currently, the company can produce 5-ml containers from its PBA-series machines up to 1,500-liter containers from its PBI-X-series machines. All these products are highly recognized by customers from around the world.

In order to implement its product diversification strategy, Kai Mei's R&D department is devoted to constantly developing innovative machines, including single, double, triple, quadruple to octagonal die-head blow molding machines, in-mold labeling machines, and injection-stretch blow molding machines.

Thanks to its concentration on high-quality, high-efficiency products through strict quality-control system and excellent aftersales services, Kai Mei has sold more than 5,000 machines to 50 different nations over the past three decades.

Kai Mei's machines have won many prizes worldwide, including the 'Golden Dragon' prize, 'Innovative Design Award' of 'Rubber and Plastic Machinery' prize and the 'Taiwan Excellence' prize in Taiwan, and the 'XX Golden Award' prize in Spain.

To sharpen its competitive edge, Kai Mei set up a factory in Dongguan of Guangdong province, China in 1998. The factory, sizing 15,000 square meters and having 200 workers,

specializes in the production of blow molding machines for both domestic sales and exports. Kai Mei's MIB 85-C injection stretch blow molding machine can integrate the processes of injection and blowing to roll out handled PC water bottle, with the handle and the bottle made of same kind of raw material, easy for recycling.
