

Jun-En Enterprise Corp.

Metal-mesh , Metal mesh making machinery

Established in 1987, Jun-En Enterprise Corp. is one of the leading metal-mesh and metal mesh making machinery manufacturers in Taiwan. As the most experienced player with long-accumulated know-how and expertise, the firm has served thousands of satisfied clients, both international and domestic. Jun-En claims that it is a reputable player in the global metal-mesh industry, also a major developer and maker of metal mesh-making machines. In recent years, the firm's R&D department has focused on design and development of newer and better machinery models to diversify its line, as well as upgrade production efficiency and productivity to elevate global competitiveness. Thanks to competitive prices and high quality, the firm's machines have been sold to clients in more than 50 countries. Jun-En is an ISO 9001-approved company,

and all its products meet related international quality standards and safety requirements. The firm was also the first metal-mesh making company in Taiwan to introduce the advanced SAP business-management system. The company claims that it will continuously improve machine productivity and customer service quality, to meet global customers' requirements and expectations.
