

# DISCOVER TAINAN'S

**FINEST-FOOD, BIOTECH, AND INNOVATION GALORE!**

## LAST STOP, WE'VE MADE IT TO TAINAN CITY PAVILION!

Tainan isn't merely Taiwan's oldest city; it's also its cultural heart. Dating back to 1624, Tainan began its global connections through the Dutch East India Company. Our slogan "Tainan, Where You Belong" emphasizes the city's profound history of cultural diversity and the harmonious coexistence of various ethnic groups.

The Tainan City Government's Economic Development Bureau has curated a selection of eight top-tier food and biotech companies for showcasing. Among them are Baokang Biotechnology, Jingchang Automotive Electronics, Jiajen Enterprises, Yujing Food, Yongliang Industry, Natural Food Enterprises, Mejico International, and Waizhou Enterprises. These companies not only epitomize Taiwan's unique flavors and boast extensive export experience but also hold international certifications such as Halal, ISO22000, HACCP, and TQF, ensuring top-notch safety, hygiene, and innovation.

That does sound pretty cool! Let's dive into the Solar Wireless Parking Assistant System from Jingchang Automotive Electronics Co., Ltd., the winner of the 2024 Taiwan Excellence Award!

What's impressive about this system is its utilization of green energy through solar charging. Moreover, it boasts super low power consumption and utilizes long-range RF wireless technology. Beyond just assisting with parking, it offers all-around detection and reverse warning functionalities. When you're backing up your car, it provides distinct beeps based on your proximity to objects. Pretty neat, don't you think?
