

Hemingstone Machinery Co., Ltd.

Film-blowing machinery, printing machinery, bag-making machinery

The Hemingstone Machinery Co., founded in 1979, specializes in making turnkey plastic bag equipment including film-blowing machines, printing machines, and bag-making machines.

With the support of its customers both at home and abroad, the company has grown into a globally known enterprise. To accommodate ever-changing market conditions and boost production efficiency, Hemingstone has ploughed large amounts of investment into the expansion of production facilities, the introduction of advanced equipment, and the adoption of modern management methods.

Hemingstone has won much praise and favorable comment from customers for the strong R&D capabilities and advanced manufacturing technologies that enable it to provide outstanding products and services.

Non-stop innovation has allowed Hemingstone to offer a wide range of top-notch machinery, including the fastest T-shirt bag-making machines as well as various types of fully automated garbage bag- and hand bag-making machinery, along with complete technical and production services.

Hemingstone regularly sends skilled technicians to provide complete after-sales services overseas. To ensure consistent product quality and performance, the company trains its personnel carefully in all relevant operating procedures and manufacturing processes are strictly monitored.

The company's products are manufactured in compliance with strict international standards, and it has obtained ISO 9001 and CE mark certification. Hemingstone is not content with these and other past accomplishments, however, and is committed to the ongoing pursuit of excellence in the years ahead.
