

Bei Bei Safety Co., Ltd.

Personal protective equipment, dust/mist respirators, face shields, hand and foot protections

Since its inception in 1985, Bei Bei Safety Co., Ltd. has been a specialized supplier of personal protective equipment (PPE), operating production factories in Taiwan and mainland China.

The company's PPE portfolio covers safety glasses, safety helmets, mask and respirators, face shields, ear protectors, head and hearing safety combination sets, welding protection instruments, safety bell vests, hand and foot protections, industrial garments, traffic cones, etc. All the products are available in different sizes and designs and are meticulously tested for high safety level.

With decades of dedication to quality upgrading and customer services, the company has been noted as a globally competitive PPE maker, having built overseas footholds in more than 45 countries of the world so far.
