

Willow Webbing & Plastic Co., Ltd.

Lanyards, wristbands, badges, ID card holders, whistles, and accessories

Located in Hemei, in Taiwan's central county of Changhua, the Willow Webbing & Plastic Co. is an experienced manufacturer that offers a variety of premiums and lanyards.

Dedicated to the provision of eye-catching and durable premiums, the company has developed a series of intriguing and colorful products including round cord/woven strap lanyards and wristbands, ID card holders, badge reels and clips, whistles, and

buckles. Thanks to its sophisticated R&D capability and rigorous production process, the company has become a highly reputed supplier in the world marketplace. From local educational institutes and municipal/national universities to Fortune's top 500 companies and government agencies, Willow's high-quality premiums have built up an unbeatable reputation among customers from all walks of life.

Willow's satin/woven strap lanyards and wristbands, featuring a comfortable texture and trendy style along with competitive prices, have become top choices for all sorts of activities including conferences, international trade fairs/shows, and other special events. To enhance the applications of its lanyards, Willow has attached a 4G USB on the lanyard buckles, successfully turning the products into cutting-edge and value-added items.

Although the company has only 20 workers, it employs an advanced R&D team that searches vigorously for all opportunities to enhance the value and functions of its products.
