

Auto Clamp Co., Ltd.

Various hose clamps

Founded in 1975, Auto Clamp Co. has built up more than 37 years of experience in making hose clamps.

Drawing on its accumulated manufacturing know-how, Auto Clamp has successfully integrated its in-house production capabilities, from the manufacturing of clamps and related parts and components to packaging and electroplating. This integration has proven effective in satisfying the company's customers not just with consistent quality, but also with timely problem-solving services and prompt delivery.

Strenuous R&D efforts are also a driver of the company's time-tested reputation in the global market. Over the past decades, Auto Clamp has consistently invested considerable amounts of resources in improving its clamps, working out a number of cutting-edge structural designs that have been patented worldwide and are used to enhance the lifespan and functionality of its clamps.

The company's product catalog includes hose clamps and miniature hose clamps which measure up to standards established by the European Union and America, interlock hose clamps, heavy duty hose clamps, Germany type hose clamps, T-bolt hose clamps, and customized models for special purposes.

Sought out by professional users for their unbeatable quality and improved practicality at competitive prices, Auto Clamp's products have been exported to more than 30 different countries in Europe, Southeast Asia, and Africa. Moreover, the customer-driven company has built a solid name as a competent OEM (original equipment manufacturer) supplier.
