

D Well Group

Soundproof & burglarproof entry doors and windows

Since being founded in 1977, D Well Group has focused on making and promoting upscale doors and windows with various exterior designs, colors and specifications as a well-known supplier in Taiwan.

The company's product lines include the Lucky series entry doors that are wood-veneered and of stainless steel, soundproof and burglarproof windows, bay windows and sliding windows, many of which are invention patented or officially certified for unbeatable quality, safety in Taiwan.

The US-072 entry door, for instance, is red-copper powder coated and has reinforced patterned glass and stylish exterior. With excellent burglarproof design as well as non-automatic hinges and chains, three-bolt door frame, the door meets Taiwan's CNS11227 national standards for excellent fire-resistance.

The AS-015 door is also a hot-seller, being of SECC 1.5mm thick galvanized steel for total thickness of 56mm, and matt silver grey for stylish look. With a high-grade chain lock, hinges and bolts, the door has primary and secondary keys that assure maximum burglar-deterrence.

The supplier also offers burglarproof sliding windows,

which are ceramic-white-toned, have compact exterior with optional stainless steel sash bars to optimize aesthetics.

With skillful designers, steel and aluminum engineers and color specialists in house, the company develops new doors and windows every month to deliver maximum added-value and personalized service.
