

Jeng Feng Cutter Manufacture Industry Co., Ltd.

Corrugated cardboard knives, flat plate cross knives, copper foil cut knives

Ever since it was founded in 1988, Jeng Feng Cutter Manufacture Industry Co. has been honing its skill as a maker of industrial knives and turning tool parts. As a result, it has become one of the most professional manufacturers of its kind in Taiwan.

The company runs a modern factory on a 72,000-square-meter plot of land. The plant is equipped with a comprehensive line of advanced production equipment that turns out slotters, NC cutters, cutters, circular knives, slitter blades, and slitter circular knives.

A long-term dedication to R&D has helped to establish the popularity of the company's products around the world. Its in-house R&D department carries out extensive research covering everything from material properties to manufacturing technologies and factory layouts, all with the aim of constantly improving product quality and optimizing production efficiency. These efforts have paid off in the company's solid reputation as a high-end producer of machinery cutters and a time-tested OEM (original equipment manufacturer) supplier to customers around the world.

Jeng Feng exports 75% of its output to markets including mainland China, Southeast Asia, the U.S., Canada, and Europe. With their high-quality materials and stringent quality controls to which they are subjected, the company's machine cutters are widely used by professionals for printing, papermaking, and electronics manufacturing, among other purposes.
